

Nurturing Our Water Resources - Since 1958

meritro

Corporate Capabilities

From its inception in 1958, Metito has grown to become a world leader in the design and supply of WATER, WASTEWATER TREATMENT and WATER DESALINATION systems and plants. The thousands of installations to Metito's credit, earned it a reputation for professional excellence through a proven record of strong and reliable performance.

In today's increasingly competitive and complex environment, effective implementation of new technologies is critical to any project. Metito is committed to developing and maintaining the skills necessary to evaluate, select and implement the state-of-the-art water treatment technologies. Metito's approach combines theoretical expertise with the practical experience of an engineering and contracting company.

Metito takes pride in its staff whose industry experience collectively adds up to hundreds of years. The extensive in-the-field experience of Metito staff is continuously enhanced by company training and development programs which ensure the constant expansion and updating of knowledge.

At Metito, engineering and management programs are put to work through the utilization of its five well manned and equipped operations departments: Process Engineering and Design, Laboratory Analysis, Equipment Manufacturing, Project Management and Project Maintenance.

Metito has further expanded on its base to offer its clients complete water management solutions through its concession and utility services departments.

Complete Water Management Solutions

Concession Services

Metito has pioneered the concept of build-own-operate, build-operate transfer and full concession business models. In these situations, Metito provides the full service of water supply or wastewater treatment from beginning to end. Drawing on its own equity supplemented with bank debt, Metito takes responsibility for the complete finance requirements. The company further designs the water and wastewater facility, supplies it, operates and maintains it over a long term concession period. The end user is guaranteed the service, for which it pays on a consumption basis. Metito has successfully implemented this concept for small cities, residential communities, tourism developments, industrial water users and ports.

Utility Services

Metito is constantly striving to find solutions to meet the increasing demand for water. It believes a key strategy in reaching this goal is through market liberalization and greater private sector involvement. Metito has always been a leader in the treatment of water and wastewater through its concession business. Moving further down the value chain, Metito is now a leader in taking roles in transmission and distribution and billing and collection, thus making it a provider of complete water management solutions. Metito's capital resources have also given the company the appetite to acquire and operate existing water and wastewater assets.

“ Less than one percent
of the world's freshwater
is accessible for human use. ”

Metito Operations and Management

Process Engineering and Design

Metito's process engineering specialists, having worked on hundreds of installations, are fully qualified in the full spectrum of water and wastewater treatment processes. Metito's process engineering teams are multi-disciplined and drawn from all continents. This enables Metito to offer state-of-the-art design, embracing mechanical, chemical, microbiological and electrical aspects, perfectly tailored to meet the needs of clients and countries across the globe.

Metito continuously invests in ongoing programs to identify promising new technologies across a broad spectrum of industries and to develop the expertise needed to engineer and construct projects that deploy them. Sophisticated softwares are used to evaluate process options, starting at the conceptual design stage and continuing through to final design.

Laboratory Analysis

The Metito laboratory is an independent operational department equipped with the most sophisticated and complete apparatus for chemical, physical, biological and organic testing of water streams. Samples collected from bench and pilot units undergo round the clock performance evaluation. Immediate analysis and interpretation of results ensure a quick response to variations in plant performance for a reliable and long term equipment service life.

Equipment Manufacturing

Metito's manufacturing personnel understand that water/wastewater treatment plants must be capable of performing twenty-four hours per day, seven days a week, and fifty two weeks per year. Water/wastewater systems and components undergo the strictest scrutiny. Quality Management and Quality Assurance Standards adopted by Metito are those outlined in the latest issue of the ISO and the equivalent ANSI/ASQC. Procedures for preparation of construction materials are strictly adhered to and closely supervised. Facilities and technical staff for metal surface preparation and treatment are amongst the best in the industry. Metito welders qualify to meet BS, ASME Sect. IX, AWS and ANSI B: 31.3 and can handle all types of Carbon steel, Super Austenitic stainless steel, Duplex stainless steel, Alloy 20 and similar exotic alloys. Manuals of internationally recognized standards are always updated and kept within reach.

Project Management

Metito's experience in the installation of Mechanical & Electrical as well as many turnkey contracts has, throughout the years, sharpened its skills in project management. The project management department has been put to the test in hundreds of projects

The project management department has embedded in it the values of full ownership, personal responsibility and dedication to on-time completion. When operating its plants, the team believes in cost effective operations by reducing downtime and efficiently using chemicals and consumables.

Metito Operations and Management

Project Maintenance

Successful start-up of plants within allocated time and budget is only part of the comprehensive service available to Metito's customers. Metito is renowned for its after-start-up services. Here, Metito relies on carefully planned preventive maintenance to keep plants running trouble free and at peak efficiency. Metito's trained staff are experienced in commissioning plant and equipment, training customers' staff to operate them correctly and maintain the plant and equipment, undertaking fixed term operational and maintenance assignments, providing a monitoring service where customers' operating data is evaluated by Metito and round-the-clock maintenance is provided.

Metito Water/Wastewater Treatment Products

The Metito group offers a comprehensive range of products for: Process Water Treatment for Industry, Water Desalination by Reverse Osmosis, Sewage Treatment, Wastewater Treatment for Industry, Water Disinfection, PLC Control, SCADA and Telemetry Systems (for the above processes) and Specialty chemicals.

Process Water Treatment for Industry

“The cost of providing safe drinking water and proper sanitation to everyone in the world by 2025 will be US\$180 billion a year, two to three times greater than present investments.”

The ever expanding industrial scene and supporting new technologies have increased the demand for a variety of water purification equipment and systems. Requirements can be as simple as a water softener or as complex as a high purity water system such as those serving the electronics industry. Metito's products cover the whole spectrum of water purification equipment with special emphasis on high purity water systems for the Oil and Petrochemical Industry, Power Industry, Pharmaceuticals and Food Industries.

Metito designs and manufactures water treatment equipment and systems for industry in a wide range of capacities to satisfy most industrial applications.

Metito Ion Exchange Technologies

These include:

- Two-Bed Demineralizers (co and countercurrent regeneration)
- Mixed Bed Demineralizers
- Condensate Polishing Units
- Dealkalizers
- Base Exchange Softeners

“Two hundred scientists in 50 countries have identified water shortage as one of the two most worrying problems for the new millennium, the other was climate change.”

Process Water Treatment for Industry

Metito Membrane Based Technologies

These include:

- Reverse Osmosis (RO)
- Nanofiltration Systems (NF)
- Ultrafiltration Systems (UF)
- Microfiltration Systems (MF)

Metito Filtration Technologies

These include:

- Media Filters
- Cartridge Filters
- Bag Filters

Metito Chemical Conditioning & Settling Technologies

These include:

- Chemical Metering Systems
- Chemical Reactors
- Reactor-Clarifiers
- Inclined-Plate Clarifiers
- Lamella Clarifiers
- Tube Settlers

“ Within 25 years, half the world’s population could have trouble finding enough freshwater for drinking and irrigation. ”

Water Desalination by Reverse Osmosis

The use of brackish and seawater sources is the natural choice for areas lacking adequate freshwater supplies. Desalination of these waters can only be achieved by one of a few processes, some preferred for brackish water while others for seawater. One of the factors that make reverse osmosis very popular is its economy of use for both brackish and seawater applications.

The desalination technology with the greatest number of plants installed in the world is reverse osmosis. Metito is one of the pioneers in this system. According to an official publication of the International Desalination Association, Metito ranks amongst the first in the world for the number of reverse osmosis plants installed. Typical Metito RO applications include the following:

Municipal Water Supply

Metito undertakes major brackish and seawater desalination contracts either on mechanical & electrical supply and supervision basis or on turnkey basis. Whether from a brackish water source or from a seawater source, Metito engineers can assume total responsibility for design and construction of a desalination plant covering: intake from sea or brackish water source; pre-treatment; RO desalination racks; post-treatment; instrumentation and PLC control; MCC, storage and pressurization for distribution.

Beach Resorts and Hotels

Metito produces a range of standard brackish and seawater desalination plants that are quite popular with permanent camp sites, oil drilling sites, beach resorts and hotels. Standard features are quite comprehensive; however, options are available to suit client's specific needs.

“ The number of people living in water-stressed countries is projected to climb from the current 470 million to three billion by 2025. Most of those people live in the developing world. ”

Water Desalination by Reverse Osmosis

Mobile Camps & Contracting Facilities

Metito manufactures standard and custom-built RO desalination plants built within purpose-designed container housing(s). These plants are completely factory installed and wired for immediate hook-up to water and power source (containerized power generator is optional). Exterior design and dimensions of the housings are made to fit standard trailers and highway codes.

Offshore Platforms

Metito has mastered the production of smaller desalination plants that fit into tight spaces. Specially designed packages are manufactured with harsh open-air sea environment in mind. These packages combine pre-treatment, desalination and post-treatment and are typically suitable for offshore, oil drilling platforms where space is scarce and trouble free operation cannot be compromised.

Surface Water Treatment

“ Nearly 200 million people in Africa are facing serious water shortages. By 2025, nearly 230 million Africans will face water scarcity, and 460 million will be living in water-stressed countries. ”

Some countries are blessed with abundant natural water sources be it lakes, rivers or dams. These are termed as surface waters. Unfortunately, surface waters are open to contamination from human and animal waste in addition to other natural pollutants. Consequently, they are particularly susceptible to contamination by organisms such as bacteria, viruses and parasites that can cause serious illness; or simply by mud during flood seasons. Metito offers several systems to treat each individual surface water in order to make it suitable for human consumption. Systems offered under this category include:

- Flocculation, clarification, filtration and disinfection
- Ultrafiltration
- Microfiltration
- Nanofiltration

Sewage Treatment

Sewage is a word normally associated with municipal or human-generated wastewater. Metito sewage treatment plants cater for a wide spectrum of applications requiring aerobic, anaerobic or anoxic treatment processes. Within the past few years, the subject of advanced sewage treatment has become greatly expanded, especially with respect to removal of nitrogen and phosphorous.

Municipal Sewage Treatment Plants

Metito has implemented dozens of municipal scale sewage treatments. These plants are comprised of all or part of the following components: Raw Sewage Pumping Stations Degritters; Screens; Flow Measurement; Primary Clarifiers; Aerobic Basins; Anaerobic Basins; Secondary Clarifiers; Tertiary Treatment; Sludge Digestors; Sludge Dewatering Systems; Instrumentation and PLC Control; MCC and Switch-Gear. More advanced treatment plants have incorporated the use of membrane bioreactors (MBR).

Package Sewage Treatment Plants

Metito's range of package treatment plants are either rectangular factory-built sectional-steel units or circular site-assembled glass-lined steel tanks. Aerobic treatment through extended aeration or contact stabilization use blower-diffuser aeration, mechanical surface aerators or rotating biological contactors. This range of Metito plants is built to cater for smaller communities not connected to a central municipal sewage treatment plant, temporary construction facilities, hotels and resorts, commercial ships, hospitals and schools.

Wastewater Treatment for Industry

“Up to 50 per cent of urban water and 60 per cent of water used in agriculture is wasted through leaks and evaporation.”

During the past decade, environmental concerns have escalated around the world as never before. In one country after another, governments are responding by applying pressure on industries to reduce unproductive consumption of chemicals and discharge of hazardous wastes. At Metito, wastewater management techniques have been successfully put to work in most type of industries. Metito's team of engineers work in partnership with clients to develop an industry-specific wastewater management program that is practical, economical and as efficient as possible.

Metito applies numerous processes and state-of-the-art technologies to treat wastewaters of diverse types of industries such as printed circuit board manufacturers, metal forming and finishing, dairies, laundries, tanning, textiles, pharmaceuticals, organic chemicals, paint and ink, power plants, refineries, pulp and paper, meat and poultry, soft drinks and steel mills.

Wastewater Treatment for Industry

Metito Physio-chemical Processes

Physio-chemical processes are used for the removal of many metals through hydroxide precipitation and alkaline chlorination, the removal of oils and fats, the removal of suspended solids and improving sludge consistencies. Metito products used in this category include:

- Reactor (Inclined-Plate) Clarifiers
- Dissolved Air Flotation Systems
- Package Chemical Metering Systems

Metito Biological & Organics Removal Processes

Biological and organics removal processes are used for removal of biological oxygen demand (BOD), chemical oxygen demand (COD) and organics. Metito products used in this category include:

- Surface Aeration Systems

- Diffused-Air Systems
- Plastic-Pac Trickling Filters
- Ozone Generator-Reactors
- GAC Adsorption Columns
- Resin Exchange Columns

Separation Processes

The Metito membrane separation processes are used for such applications as: removal, recovery or concentration of metals; sterile filtration in the medical industry; recovery or concentration of electro coat paint; textile sizing; oil; fractionation of whey. Metito products used in this category include:

- Reverse Osmosis Systems
- Ultrafiltration Systems
- Microfiltration Systems

“Water-borne diseases are responsible for 80 percent of illnesses and deaths in the developing world, killing a child every 8 seconds.”

Water Disinfection

Decades of water disinfection experience and thousands of gas chlorinations and hypochlorinators, ozone generators and UV radiators installed, established Metito as a leader in this field. Metito supplies disinfection equipment and plants for drinking water, sewage and industrial wastewater treatment, among others. The scope of Metito's work covers both supply of standard equipment and the design and supply of customized systems through to the commissioning stage. The scope of disinfection processes and equipment supplied include:

Chlorination

Gas Chlorine: Vacuum-type gas chlorinators, chlorine analyzers, cylinders and drums, equipment for automatic control, standby facilities, health and safety protection and chemical handling.

Hypochlorite: Chemical metering pumps and flow controls for sodium and calcium hypochlorite feed, hypochlorite tanks and agitators and safety accessories.

Plc Control, Scada and Telemetry Systems

Almost in all types of multi-function and multi-component water, sewage and wastewater treatment systems, monitoring and control capability is a must. Progress and improved reliability of analytical and other process- control instruments have encouraged engineers to depend on automation to the maximum degree possible, which in turn favors the use of PLC/SCADA based control systems.

Design of a suitable PLC control and SCADA system for interface to water/wastewater and desalination systems requires perfect understanding of the process and available control hardware. User friendly is a good description of a control system that works in harmony with the human element to detect plant anomalies and takes early measures for uninterrupted operation. Depending on the specifics of an application, a Metito control system, in addition to sensing instrumentation, may consist of the following components: Interactive Graphics Operator Station, CPU/power supply, I/O hardware and office

environment hardware for holding of the computer, monitor, printers and accessory equipment.

The Interactive Graphics Operator Station (IGOS) software can clearly display in color on the monitor all parts of the process. An operator using the keyboard can interact with the monitor and the treatment plant processes to the maximum level allowed by the pre-programmed software.

Telemetry, another specialty of a Metito control engineer is essential for communicating instrument outputs with main and sub-control stations. Telemetry is especially important in larger Metito plants having integral but remote components. Fiberoptic or split-wire communication cables are used depending on location and distance of the different components.

“Unsanitary water, which provides a breeding ground for parasites, amoebas and bacteria, damages the health of 1.2 billion people a year.”

Specialty Chemicals

The Metito chemical division was started in 1982 and has established itself as one of the leading chemical suppliers worldwide. An expanding market has created huge demand for competitively priced quality chemicals. The Metito chemical division with its distribution centers and regional network of offices worldwide is meeting that demand daily. A comprehensive range of commodity and specialty chemicals are offered to meet the needs of most industries and private consumers.

Chemical Products

- Scale inhibitors
- Corrosion inhibitors
- Antifoulants
- Dewatering agents
- Emulsion breakers
- Cleaners/degreasers
- Industrial hygiene products
- Pre-commissioning cleaners and desalants
- Biocides
- Sludge conditioners
- Dispersants
- Desalination additives
- Maintenance Products
- Odor control agents

“Water problems are more related to mismanagement than scarcity.”

The 'M-Series'

The M-series range of products were developed by the Metito chemicals division to combat Scaling, Corrosion, Microbiological Fouling and Inorganic Fouling. The M-series chemicals are used throughout the world for Boilers, Chillers, Reverse Osmosis systems, Potable Water Lines, Cooling Systems and many other water-using systems.

Consultancy & Advisory Service

The Metito chemical division through its laboratories, treatment monitoring programs and experienced chemists, also provides a consultancy and advisory service to its clients. The long term systems engineering and operation experience of Metito is a valuable source of information on the applicability of chemicals and implementation of treatment programs.

34.	EPIC FOR RAS LAFFAN EMERGENCY & SAFETY COLLEGE WWTP	QATAR	SEG-SOCIETE D'ENTREPRISE & DE GESTION S.A.R.L.	QATAR PETROLEUM	2008/2009	ENGINEERING/DESIGN, SUPPLY OF M & E, FREIGHT, DELIVERY TO SITE, INSTALLATION & COMMISSIONING, SUPERVISION AT SITE, TRAINING OF OPERATORS OF 6500M ³ /DAY WWTP - SBR.
35.	BOROUGE 2 PROJECT UTILITIES & OFFSITES FEED	UAE	TECHNICAS REUNIDAS	ABU DHABI POLYMERS COMPANY LIMITED	2008/2009	DESIGN, ENGINEERING, SUPPLY, DELIVERY, INSTALLATION AND COMMISSIONING, TESTING ON SITE AND TRAINING OF OPERATORS FOR 5784 M ³ /DAY CAPACITY OF CPI PACKAGE, 5784 CAPACITY OF DGF PACKAGE, 2000 LPH FOR SLOP OIL PACKAGE, 480 M ³ /DAY CAPACITY OF OCU SPENT CAUSTIC TREATMENT, 6960 M ³ /DAY CAPACITY OF BIO-TREATMENT & CLARIFIER PACKAGE, 8,520 M ³ /DAY CAPACITY OF POLISHING PACKAGE AND 161.52 M ³ /DAY CAPACITY OF SANITARY WASTEWATER TREATMENT. APPLICATION WASTE WATER TREATMENT PLANT.
36.	EL TEBBIN THERMAL POWER PLANT PROJECT 2X350MW GAS/OIL FIRED UNITS	EGYPT	CAIRO ELECTRICITY PRODUCTION CO.	MINISTRY OF ELECTRICITY AND ENERGY	2007/2009	DESIGN, SUPPLY, INSTALLATION AND COMMISSIONING OF 2 X 350MW CAPACITY OF WATER PRE-TREATMENT SYSTEM, WATER DEMINERALIZATION SYSTEM, CHEMICAL FEED SYSTEM, CONDENSATE POLISHER SYSTEM, OIL WATER SEPARATOR.
37.	INDUSTRIAL WASTE WATER TREATMENT PLANT FOR SHEHFE CASING CO.	EGYPT	SHEHFE CASING CO.	MISR COUNSLT - DR. SAMEH ABDUL GAWAD	2007/2008	DESIGN, SUPPLY, DELIVER, INSTALLATION, COMMISSIONING AND START UP OF 500M ³ /DAY CAPACITY OF INDUSTRIAL WASTE WATER TREATMENT PLANT.
38.	SALALAH METHANOL PROJECT	OMAN	GS ENGINEERING & CONSTRUCTION	SALALAH METHANOL COMPANY	2007/2008	DESIGN, ENGINEERING, SUPPLY OF M&E OF 60M ³ /HR CAPACITY OF EFFLUENT TREATMENT PLANT AND 40M ³ /DAY CAPACITY OF SEWAGE TREATMENT PLANT.
39.	SIPCHEM - JUBAIL ACETYL PROJECT	SAUDI ARABIA	FLUOR CANADA LTD.	SIPCHEM	2007/2008	DESIGN, ENGINEERING, MANUFACTURE, ASSEMBLE, SUPPLY (FOB PORTS). SUPERVISION OF ERECTING & COMMISSIONING (OPTIONAL) FOR VARIOUS – 4.16M ³ /HR SULPHATE REMOVAL PACKAGE & 65M ³ /HR BIOLOGICAL TREATMENT PLANT & SLUDGE HANDLING SYSTEM. APPLICATION EFFLUENT TREATMENT PLANT.
40.	WASTE WATER TREATMENT PLANT FOR SAVOLA EDIBLE OIL CO.,	EGYPT	AFIA INTERNATIONAL CO.,	AFIA INTERNATIONAL CO.,	2007/2007	DESIGN, SUPPLY, DELIVER E & M ON DDU, INSTALLATION, COMMISSIONING AND START UP OF 700M ³ /DAY CAPACITY OF WASTE WATER TREATMENT PLANT.

NO.	PROJECT NAME	LOCATION	CONTRACTOR'S NAME	ENDUSER	YEAR	SCOPE OF WORK
41.	KITCHEN FOOD WASTE FOR SHELL CAMP	QATAR	AL JABER ENERGY SERVICES	QATAR SHELL	2007/2007	DESIGN, SUPPLY, INSTALLATION AND COMMISSIONING OF KITCHEN SOLID FOOD WASTE FOR SHELL CAMP 100KG/HR CAPACITY OF SOLID WASTE TREATMENT.
42.	QATARGAS 3&4 ONSHORE PROJECT	QATAR	CTEP FZCO (CHIYODA TECHNIP JV)	QATARGAS 3&4 PROJECTS (COMPANY)	2006/2007	DESIGN, ENGINEERING, MANUFACTURING AND FOB UAE PORT AND SUPERVISION OF ERECTION AND COMMISSIONING OF 340M3/HR CAPACITY OF FILTRATION. APPLICATION WASTE WATER TREATMENT PLANT.
43.	WASTE WATER TREATMENT FOR ZAKHER DAIRY FARM	UAE	ZAKHER LIVESTOCK & POULTRY FARM	ZAKHER LIVESTOCK & POULTRY FARM	2006/2006	SUPPLY, DELIVERY TO SITE INCLUDING INSTALLATION AND COMMISSIONING OF 200M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
44.	EFFLUENT TREATMENT SYSTEM (WWT) FOR LAFFAN REFINERY PROJECT	QATAR	GS ENGINEERING & CONSTRUCTION	LAFFAN REFINERY	2005/2006	DESIGN, ENGINEERING, MANUFACTURING AND FOB SUPPLY OF 50M3/HR CAPACITY OF WASTE WATER TREATMENT PLANT.
45.	HALUL ISLAND - GTC 151/EF/04	QATAR	ORIENTALS ENTERPRISE CONTRACTORS AND ENGINEERS	QATAR PETROLEUM CONSULT : N/A	2004/2005	ENGINEERING, PROCUREMENT INSTALLATION AND COMMISSIONING OF WASTEWATER TREATMENT PLANT 2 X 100 M3/DAY.
46.	COMPAQ WTP PLANTS	IRAQ	AL KHAFFAF CONTRACTING COMPANY	US ARMY	2004/2004	DESIGN, MANUFACTURE & SUPPLY 20 M3/HR WWTP
47.	LEFICO	LEBANON	LEBABESE FIBER COMPANY (LEFICO),	LEBANESE FIBER COMPANY (LEFICO)	2004/2004	DESIGN, ENGINEERING, MANUFACTURING, AND SUPPLY TO SITE OF 120M3/DAY CAPACITY OF WASTE WATER TREATMENT SYSTEM ON DELIVERY TO SITE BASIS AND SUPERVISION OF INSTALLATION FOR MAXIMUM OF 10 DAYS.
48.	AUJAN SOFT DRINK INDUSTRY	UAE	MOUSA INDUSTRIAL COMPANY	AUJAN SOFT DRINK INDUSTRY	2004/2004	DESIGN, SUPPLY, INSTALLATION AND COMMISSIONING OF BWRO 2X1320 M3/DAYAND DISPOSAL OF WASTE WATER TREATMENT 300 M3/DAYTO DIP
49.	UMM AL NAR INDEPENDENT WATER & POWER PROJECT	UAE	TOSHIBA CORPORATION	ADWEA / INTERNATIONAL POWER / TEPCO / MITSUI CONSORTIUM	2003/2004	3 X 56 M3/HR CAPACITY DEMINERALIZATION AND 20 M3/HR CAPACITY DEMINERALIZATION WITH FOT JOB SITE BASIS FOR DEMINERALIZED WATER TREATMENT PLANT AND WASTE WATER TREATMENT PLANT

NO.	PROJECT NAME	LOCATION	CONTRACTOR'S NAME	ENDUSER	YEAR	SCOPE OF WORK
50.	JEBEL ALI "L" STATION - PHASE I	UAE	TOSHIBA CORPORATION	DEWA	2003/2004	2 X 340 M3/HR DEMINERALIZATION, 17 M3/HR CHEMICAL WASTE WATER TREATMENT AND 19 M3/HR OILY WASTE WATER WITH DESIGN AND SUPPLY ON FOT SITE BASIS
51.	AUGMENTATION OF WWTP FOR GLOBAL PHARMA CO.	UAE	GLOBALPHARMA CO LLC	GLOBALPHARMA CO. LLC	2003/2003	DESIGN, ENGINEERING, SUPPLY, INSTALLATION, COMMISSIONING OF EQUIPMENT FOR WWTP + SUPPLY OF SPARE PARTS FOR 1 YEAR OPERATION.
52.	SOUTH PARS GAS FIELD DEV. PHASE 4&5 ONSHORE FACILITIES YF116	IRAN	HYUNDAI ENG'R & CONSTR. CO. LTD.	AGIP IRAN BV	2002/2003	DESIGN, ENGINEERING, SUPPLY OF M&E, FREIGHT, DELIVERY ON FOB JEBEL ALI/EUROPEAN PORT. SUPERVISION OF INSTALLATION AND COMMISSIONING (EXTRA) ON PER DAY BASIS OF 50M3/DAY CAPACITY OF STP, 5M3/HR CAPACITY OF CHEMICAL WASTE WATER TREATMENT PLANT, 120M3/HR CAPACITY OF OILY WASTE WATER TREATMENT PLANT.
53.	BUJUMAN CENTRE EXPANSION PROJECT	UAE	THE NATIONAL CO. FOR MECH. AND ELECT. WORKS LTD.	BURJUMAN CENTRE - EXPANSION	2002/2003	DESIGN, ENGINEERING SUPPLY AND INSTALLATION AND COMMISSIONING OF GREY WWTP 130 M3/DAY.
54.	AL WADI POULTRY WWTP	UAE	ARAB COMPANY FOR POULTRY PRODUCTION	AL WADI POULTRY FARM	2002/2003	DESIGN, SUPPLY, INSTALLATION AND COMMISSIONING 300 M3/DAY WWTP.
55.	WASTE WATER TREATMENT PLANT (BABYLON) SITE E1 MOUSEL DAIRY	IRAQ	GENERAL CORPORATION FOR WATER AND SEWERAGE STORES – BAGHDAD. REPUBLIC OF IRAQ, MINISTRY OF INTERIOR GENERAL CORPORATION FOR WATER AND SEWERAGE	MOUSEL DAIRY PLANT	2002/2002	SUPPLY OF EQUIPMENT (ELECTRO & MECHANICAL) SPARES FOR 2 YEARS OPERATION INCLUDING SUPERVISION OVER ALL INSTALLATION AND COMMISSIONING FOR TREATMENT OF DAIRY WASTE WATER.
56.	WWTP - BABYLON SITE F2 (MOUSEL COTTON TEXTILE FACT.)	IRAQ	GENERAL CORPORATION FOR WATER AND SEWERAGE STORES – BAGHDAD, REPUBLIC OF IRAQ, MINISTRY OF INTERIOR GENERAL CORPORATION FOR WATER AND SEWERAGE	MOUSEL COTTON TEXTILE FACTORY, IRAQ	2002/2002	SUPPLY OF EQUIPMENT (ELECTRO & MECHANICAL) SPARES FOR 2 YEARS OPERATION INCLUDING SUPERVISION OVER ERECTION AND COMMISSIONING. FOR TREATMENT OF TEXTILE WATER.

NO.	PROJECT NAME	LOCATION	CONTRACTOR'S NAME	ENDUSER	YEAR	SCOPE OF WORK

59.	EDIBLE OIL	UAE	THE EDIBLE OIL COMPANY (D) LLC	DUBAI INVESTMENT PARK / CAM GROUP	2001/2002	ENGINEERING, DESIGN, SUPPLY OF COOLING TOWER CAPACITY OF 1930 M3/HR, SOFTENER OF 10 M3/HR AND WWTP 250 M3/DAY.
60.	STATE COMPANY FOR DAIRY PRODUCTS - ABU GHRAIB PLANT	IRAQ	GENERAL CORPORATION FOR WATER AND SEWAGE (MINISTRY OF INTERIOR)	STATE COMPANY FOR DAIRY PRODUCTS	2000/2001	SUPPLY, DELIVERY CNF SITE AND SUPERVISION FOR INSTALLATION AND COMMISSIONING + TRAINING OF 4800M3/DAY CAPACITY OF DAIRY WASTEWATER.
61.	SHERATON PLAZA STAFF ACCOMMODATION	UAE	ARABTEC CONSTRUCTION COMPANY	SHERATON PLAZA HOTEL DUBAI	2000/2001	DESIGN, SUPPLY, INSTALLATION AND COMMISSIONING OF 2X100 M3/DAY CAPACITY OF SEWAGE TREATMENT PLANT AND 1X120 M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
62.	GLOBAL PHARMA	UAE	GLOBAL PHARMA. DUBAI	GLOBAL PHARMA / DUBAI INVESTMENTS INDUSTRIAL PARK	2000/2000	DELIVER, INSTALLATION AND COMMISSIONING OF 40M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
63.	NAD AL SHIBA INTERNATIONAL STABLES	UAE	DRAKE AND SCULL	ENGINEERS OFFICE	2000/2000	DESIGN, ENGINEERING, SUPPLY OF M+E, FREIGHT, DELIVERY TO SITE, INSTALLATION AND COMMISSIONING, TESTING ON SITE AND TRAINING OF OPERATORS FOR 80M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
64.	ROSETTA GAS FIELD DEVELOPMENT PROJECT (ZAFKO)	EGYPT	RASHID PETROLEUM COMPANY	RASHID PETROLEUM COMPANY	1999/2000	SUPPLY OF 22 M3/HR CAPACITY OF OILY WASTE WATER TREATMENT PLANT FOR RASHID PETROLEUM COMPANY.
65.	UPGRADING OF FRESH FRUIT AND VEGETABLE FACTORY - WWTP	UAE	THE GOVT. OF ABU DHABI SEWERAGE PROJECTS COMMITTEE	MARFA VEGETABLE FACTORY	1999/2000	ENGINEERING, DESIGN, SUPPLY M+E, DELIVERY TO SITE, INSTALLATION AND COMMISSIONING OF 600M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.

NO.	PROJECT NAME	LOCATION	CONTRACTOR'S NAME	ENDUSER	YEAR	SCOPE OF WORK
66.	BOROUGE PETROCHEMICALS PRODUCT	UAE	BECHTEL	BOROUGE PETROCHEMICALS CO.	1999/2000	DESIGN, MANUFACTURE, INSPECTION, TESTING, PACKING & DELIVERY OF EFFLUENT TREATMENT PACKAGE IN ACCORDANCE TO SPECIFICATIONS WITH FOLLOWING PACKAGES: PACKAGE A – OILY WATER TREATMENT SYSTEM – 50 M3/HR AVG., PACKAGE B1 – SANITARY WASTE WATER TREATMENT – 2.0 M3/HR NOR., PACKAGE B2 – BIOTREATER / CLARIFIER – 55M3/HR AVG., PACKAGE B3 – SAND FILTER SYSTEM – 55M3/HR NOR AND PACKAGE C – OIL SKIMMER SYSTEM PACKAGE – 5 M3/HR
67.	SIDI KERIR PETROCHEMICAL COMPANY (SIDPEC)	EGYPT	SAMSUNG	SIDPEC	1999/1999	SUPPLY OF WASTE WATER TREATMENT PLANT CAPACITY OF 160M3/DAY FOR PETROCHEMICAL PLANT.
68.	COOLING WATER CHEMICALS FOR BANJARMASIN PP	INDONESIA	TOSHIBA PLANT KENSETSU CO., LTD	PLN	1999/1999	SUPPLY, DELIVERY OF COOLING WATER CHEMICAL DOSING SYSTEM.
69.	BANJARMASIN WATER TREATMENT SYSTEM	INDONESIA	TOSHIBA PLANT KENSETSU CO. LTD.,	PT. PLN (PERSERO)	1997/1998	TURNKEY C&F OF RIVER WATER TREATMENT(2 X 480 M3/HR CAPACITY), REVERSE OSMOSIS PLANT (2 X 15 M3/HR CAPACITY), DEMINERALISATION PLANT (2 X 15M3/HR CAPACITY), WASTE WATER TREATMENT PLANTS (1 X 12 M3/HR CAPACITY), ASH & COAL RUN OFF WATER TREATMENT PLANT (1 X 12 M3/HR CAPACITY) & NEUTRALISATION PLANTS (1 X 20 M3/HR CAPACITY).
70.	ALSAMA INK WWTP	SAUDI ARABIA	ALSAMA INK CO. LTD	ALSAMA INK CO., LTD	1997/1998	SUPPLY, DELIVERY, INSTALLATION, TESTING AND COMMISSIONING OF 300M3/DAY CAPACITY OF WASTEWATER TREATMENT PLANT.
71.	WWTP FOR MARMUM DAIRY FARM	UAE	DUBAI INVESTMENT,	MARMUM DAIRY FARM	1997/1998	SUPPLY, INSTALLATION AND COMMISSIONING OF 700M3/DAY CAPACITY OF WWTP.
72.	DATES FACTORY	UAE	ALGECO	AL AIN MUNICIPALITY	1997/1997	ENGINEERING/DESIGN, SUPPLY OF M&E, FREIGHT, DELIVERY TO SITE, COMPLETE INSTALLATION AND COMMISSIONING OF WWTP 300M3/DAY.
73.	ARZIEW, LPG PROJECT	ALGERIA	ISHIKAWAJIMA HARIMA HEAVY INDUSTRIES CO.LTD.,	SONATRACH, ALGERIA	1996/1997	SUPPLY OF 55M3/DAY CAPACITY OF WWTP ON FOB UK PORT PACKED FOR SEA SHIPMENT.
74.	JUBAIL PAINT LINE PROJECT	SAUDI ARABIA	UNIVERSAL METAL COATING CO (UNICOIL)	UNIVERSAL METAL COATING CO (UNICOIL)	1996/1997	SUPPLY, INSTALLATION OF WASTE WATER TREATMENT PLANT AND COOLING TOWER.

NO.	PROJECT NAME	LOCATION	CONTRACTOR'S NAME	ENDUSER	YEAR	SCOPE OF WORK
75.	NATIONAL FERTILIZER PROJECT	THAILAND	HYUNDAI ENGINEERING & CONSTRUCTION CO. LTD.	NATIONAL FERTILIZER PUBLIC CO. LTD.	1995/1996	DESIGN, MANUFACTURE, SUPPLY FOB AND SUPERVISION OF INSTALLATION OF 150M3/HR CAPACITY OF WASTE WATER TREATMENT PLANT AND 20X2M2/HR CAPACITY OF RAW WATER TREATMENT PLANT FOR FERTILIZER COMPLEX.
76.	MOVENPICK HOTEL - PETRA	JORDAN	LEVANT HOTELS & TOURISM	LEVANT HOTELS & TOURISM CO.	1995/1995	DESIGN, SUPPLY, INSTALLATION, TESTING, COMMISSIONING AND MAINTENANCE OF 172M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
77.	TUAS (SINGAPORE) WATER & EFFLUENT TREATMENTS SYSTEM	SINGAPORE	CARNAUD METALBOX LTD	CARNAUD METALBOX PACKAGE PTE LIMITED	1995/1995	SUPPLY AND DELIVERY EXWORKS EUROPE FOR 544.8M3/DAY CAPACITY OF DEMINERALIZATION AND 163.2M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT. SUPPLY OF GRP TANKS FROM SINGAPORE TO SITE. SUPPLY ALL INSTALLATION MATERIALS INCLUDING INTERCONNECTING PIPEWORKS TO THE CAN WASHER. SUPERVISION OF INSTALLATION AND COMMISSIONING AND TRAINING OF LOCAL PERSONNEL.
78.	CPL 011 PROJECTS LOTUS VIETNAM	VIETNAM	CARNAUD METALBOX LTD.	CARNAUD METALBOX LTD.	1995/1995	SUPPLY, DELIVER, SUPERVISE, INSTALLATION AND COMMISSIONING AND TRAINED LOCAL PERSONNEL, ONE OFF WATER AND WASTEWATER TREATMENT PLANT. 324M3/DAY CAPACITY OF WATER TREATMENT PLANT AND 144M3/DAY CAPACITY OF WASTE WATER TREATMENT.
79.	AL-MALIYA	EGYPT	SCIENTIFIC & TECHNOLOGICAL COOPERATION	AL - MALIYA CO.	1994/1995	SUPPLY AND SUPERVISION OF ERECTION AND COMMISSIONING OF 50 M3/HR WASTE WATER TREATMENT PLANT.
80.	FRESH FRUIT W.W.T.P. - AL MARFA	UAE	ARABIAN CONSTRUCTION CO.	MUNICIPALITY OF ABU DHABI, MR. HASSAN ALI - PROJ. DEPT.	1994/1995	DESIGN, SUPPLY C&F ABU DHABI, SUPERVISION OF INSTALLATION, TESTING, COMMISSIONING AND HAND OVER OF 260 M3/DAY CAPACITY OF WASTE WATER TREATMENT PLANT.
81.	HUBCO POWER PLANT	PAKISTAN	ISHIKAWAJIMA HARIMA HEAVY INDUSTRIES (IHI)	HUB POWER COMPANY LIMITED	1993/1994	DESIGN AND SUPPLY OF 2X50M3/HR CAPACITY OF DEMINERALIZATION AND 2X100 M3/DAY CAPACITY OF WWTP.
82.	CELSA ROLLING / STEEL MILL	SPAIN	CELSA	CELSA ROLLING/STEEL MILL	1993/1993	DESIGN, SUPPLY, MANUFACTURE, DELIVER, INSTALLATION AND COMMISSIONING OF 60M3/HR CAPACITY OF WWTP.

Abbreviations:

WTP - Water Treatment Plant

STP - Sewage Treatment Plant

BWRO – Brackish Water Reverse Osmosis

WWTP - Wastewater Treatment Plant

SWRO - Seawater Reverse Osmosis

*IWWTP - Industrial Wastewater Treatment
Plant*

RO - Reverse Osmosis

CBWRO - Containerized Brackish Water Reverse Osmosis

DEMIN-Demineralization

ETP-Effluent Treatment Plant

OWWTP-Oily Wastewater Treatment Plant

MBR-Membrane Bioreactor

MB-Mixed Bed

CPU-Condensate Polishing Unit

UF-Ultra Filtration
