SAUDI CERAMICS

*“A brand with
experience”*

Saudi Ceramic Company, founded in 1977, has emerged as one of the leading ceramics companies in the Middle East, and is on its way to becoming one of the top ten producers of tiles in the world. Through constant innovation, quality control, and keeping pace with the newest technology, SCC manufactures products to the highest international standards. The ISO 9001 certificate has been granted to SCC repeatedly since 1996.

*Current
annual output
of SCC is as
follows:*

Through aggressive marketing combined with a high quality product at competitive prices, SCC now has sales in more than 50 countries. Customer care is another important pillar in dynamic, innovative, and competitive company.

64m

64 MILLION SQUARE
METERS OF CERAMIC AND
PORCELAIN TILES.

6m

6 MILLION PIECES OF
DECORATIVE TILES.

5m

5 MILLION PIECES OF TILE
ACCESSORIES.

3.2m

3.2 MILLION PIECES OF
SANITARY WARE.

10m

10 MILLION PIECES OF
ROAD MARKERS.

2m

2 MILLION PIECES
OF ELECTRIC WATER
HEATERS.

OUR SANITARY WARE

A WORLD OF SENSATIONS

الخزف السعودي
Saudi Ceramics

Today's bathroom is often acknowledged as an important aspect of the living space. A carefully designed space to feel, create sensations and let your imagination run wild. Relaxation, comfort, & aesthetic pleasure... Saudi Ceramics considers the bathroom a complete space in which design and wellness melt into one. A personalized space that meets all the needs and wishes of every client.

That is why for Saudi Ceramics, every project is unique. The most advanced technology and new aesthetic trends are being used to develop high quality, modern products. Exceptional products pass the most demanding quality controls on the market and make this company an international reference.

New trends will continue to be decisive for Saudi Ceramics. New ideas, new designs and new formats create a new concept of the bathroom - a space in continual transformation for tomorrow's society.

FINISHES

OUR QUALITY
“Art in progress”

SANITARY WARE

CATALOGUE.

INNOVATION

OUR MAIN GOAL.

The company has its own R&D department, that works in order to detect the future needs and to create new processes and products. The implementation of new raw materials; new colors, textures and finishes; technologies that reduce the production costs of the new ink jet systems are part of the tasks performed by our Innovation team.

This policy of innovation is reflected in our catalog of products: more colors, formats and textures. More decorative tiles and accessories and the latest trends join our catalog to extend our wide range of products.

Our intensive policy of Research and Development has helped us to achieve a notable volume of production that matches the local and international standards of quality. We produce 64 million square meters of ceramic and porcelain tiles per year and over 6 million pieces of decorative tiles. More than 5 million of tile accessory pieces are also produced in our factories annually.

SINGLE PIECES COUNTERTOP WASHBASINS

TECHNICAL SPECIFICATIONS

Technical drawing of a mechanical assembly, likely a lamp or light fixture, showing three views: a top view, a side view, and a front view.

Top View: Shows a square base with a central circular feature. Dimensions include a total width of 420, a central hole diameter of $\varnothing 48$, a distance of 610 from the center to the top edge, a distance of 100 from the center to the side edge, a distance of 177 from the center to the bottom edge, and a total height of 386. A smaller circular feature with a diameter of $\varnothing 35$ is located near the top center.

Side View: Shows a cross-section of the assembly. Dimensions include a total width of 900, a total height of 710, a top edge thickness of 40, a central hole diameter of $\varnothing 24$, a distance of 145 from the center to the right edge, and a distance of 360 from the center to the bottom edge.

Front View: Shows a cross-section of the assembly. Dimensions include a total width of 500, a total height of 898, a top edge thickness of 190, a distance of 420 from the center to the top edge, a distance of 37,5 from the center to the side edge, a distance of 188 from the center to the right edge, a distance of 177 from the center to the bottom edge, and a distance of 50 from the center to the front edge. A central hole with a diameter of $\varnothing 70$ is shown.

Technical drawing of a mechanical assembly, likely a pump or motor component, showing three views: a top view, a front view, and a side view.

Top View (Top):

- Overall width: 506
- Overall height: 420
- Inner width: 590
- Inner height: 274
- Top flange width: 102
- Top flange thickness: 38,5
- Central hole diameter: $\varnothing 47$
- Inner hole diameter: $\varnothing 35$

Front View (Middle):

- Overall height: 710
- Overall width: 900
- Top flange width: 590
- Top flange thickness: 45
- Inner hole diameter: $\varnothing 24$
- Inner width: 356
- Bottom flange thickness: 11,4

Side View (Bottom):

- Overall height: 896
- Overall width: 500
- Top flange width: 420
- Top flange thickness: 38,5
- Inner width: 590
- Inner height: 186
- Bottom flange thickness: 18,2
- Inner hole diameter: $\varnothing 70$
